FIVE STAR-Rating

Today was the first day on the job. So I can only rate 1/3 of the job done. But I must comment early how we are so impressed by the care he takes in the detail. He is just focused and unstoppable -- worked straight through from 10am to 5pm. What I love most besides the meticulous job James is doing, is the fact that he seems to be painting his own house by the way he goes back over his work to look for flaws, etc. It's exactly what I was hoping for, and our basement looks amazing! It's not an impressive house but he is treating it like it is, and we appreciate that. His quote is beyond reasonable, it's almost a steal. So happy.
